B.SC Physics (2017-2020)
St John's College, Tirunelveli

HSC (2016-2017)
St John's HSS, Tirunelveli

SSLC (2014-2015)
Christhu Raja HSS, Tirunelveli

PROFILE

I am a Web (React) and Mobile app (Flutter) Developer based in Tamil Nadu, India. As a self-taught developer with a dedication to continuous learning, I possess a strong foundation in Web, Mobile and UI/UX principles and consistently deliver top-tier code solutions. Having contributed effectively to diverse projects, I utilize React and Flutter to craft user-centric applications. My commitment to excellence drives me to continually refine my skills, explore cutting-edge technologies, and deliver innovative solutions.

WORK EXPERIENCE

uSiS Technologies   2023 - Present

Mobile App Development (Flutter)

- Developed an Employee Self-Service (ESS) app for comprehensive employee management, facilitating tasks like leave requests, pay slips downloads, and document uploads.
- Created a Warehouse Management App enabling efficient inventory oversight across multiple locations, with features including real-time editing, product requests, and order placement, all optimized for various devices.
- Engineered a Waste Management App utilizing local SQL Lite storage and Bluetooth connectivity for accurate waste data collection and categorization by weight.
- Managed a Printer App for instant event ID card printing, enhancing event organization and attendee experience.

Web Development (React.js)

- Crafted a comprehensive Admin panel website to complement the Employee Self-Service (ESS) application, utilizing React.js to deliver a seamless user experience and efficient management capabilities.

PERSONAL PROJECTS

React.js

- Created a sleek Movie website using React.js and Redux, offering the latest movies and TV series with a captivating UI
- Developed a Personal Website with React.js, showcasing my skills and featuring a contact option for easy communication.
- Designed a Note-keeping and Todo website for efficient activity tracking.
- Developed an E-commerce app with React.js for seamless shopping experiences.
- Developed a weather reporting website for showing accurate forecasts.

Flutter

- Engineered a mobile application version of my personal portfolio website, optimizing accessibility and user engagement on handheld devices.
- Designed and developed a waiter order application with robust functionalities, including order management, local database storage, real-time bill calculation, and comprehensive order history tracking.
- Developed a snack time order application with dynamic food addition capabilities, enhancing efficiency in casual group ordering scenarios, such as roadside shops, by eliminating the need for manual note-taking.
- Created a comprehensive news application offering real-time access to breaking news worldwide, categorized by genre and media house for streamlined information consumption and user convenience.

COURSES & CERTIFICATION

- Project Management Certification at Cognizant for Agile Methodology.
- The Complete Web Development Course by Udemy.
- Responsive Web Design by FreeCodeCamp and Udemy.
